* Easy to use * No special configuration * No special requirements * Easy to use monitoring * Can be used as a standalone utility * Worked well on all windows platforms * Control website statistics * Specify websites to be monitored * The app keeps a log of the websites that have been monitored. * Remote website monitoring * Automatically updates website statistics Appnimi Website Monitor Feature: * Can watch over many websites at a time * Worked well on all Windows platforms * Can monitor hundreds or thousands of websites * Web site statistics are grouped by pages * Monitor website conditions (includes both positive and negative) Appnimi Website Monitor Version: * 2.0.2 * 5/23/2014 Appnimi Website Monitor Related Links: * * * * EASY TO USE WEBSITE MONITORING SOFTWARE! Can be used to monitor thousands of websites at once (one-click clone report)!! If you have a website(s) that you want to monitor, then this website monitoring solution can be very useful. Simply create a report of the sites you wish to monitor, download to your computer and use it. You do not need to run anything or spend money on a separate service to maintain your website statistics and see your website statistics on your computer (as they will now be emailed to you automatically and updated daily). The software is non-obtrusive. It does not require access to your computer or ask for data from the internet. The software runs in the background without any screens or user interaction. The program can monitor online webpages, websites, and blogs. Sites can be monitored in real time with no delays! The software enables you to view a list of sites with statistics that are updated in real time. No subscription fees. Customizable with 11 types of statistics. Website Monitoring Software is an extremely simple to use website monitoring solution. You can edit the reports and add/delete monitors as you wish. The software provides customizable reports. Sites can be monitored in real time. Website Monitoring Software features: * Uses a single open connection to access

What's New in the?

* Monitoring of user defined website... Appnimi WEB Security monitor is a handy and reliable application designed to watch over user-defined websites. Usage is simple: first off, you need to define a list of websites to be monitored. This can be easily accomplished by hitting the 'Add' button. After you populated the list, the application starts monitoring the websites quietly, while you work on other projects. Appnimi WEB Security Monitor Description: * Monitoring of user defined website... Now you can monitor the websites you care about in real-time.
